**Focused on Power Protection and Environmental Control**

As digital technology continues to grow, so does the demand for reliable 24/7 critical infrastructure and environmental control equipment to keep systems running. Since 1989, Power & Environment International, Inc (PEI) has focused on providing the most dependable critical infrastructure products and services available. Today, our ongoing commitment has made us one of the most trusted suppliers of new and refurbished power protection and environmental control solutions in the world.

With facilities nationwide, PEI's skilled and dedicated team serves a wide range of customers, small and large, including Fortune 500 companies such as Google, Microsoft, Intel, US Air Force, Exxon, ATT, Sprint, and Eaton, focusing on:

**New and Refurbished Equipment**

PEI maintains a large inventory of new and refurbished equipment, including hard-to-find OEM parts, that are reliable, competitively-priced, and backed by our no risk guarantee.

**Evaluate Refurbished vs New Equipment**

**Equipment Service**

From scheduled maintenance to emergency repairs and support, PEI's experienced field engineers and dedicated account managers excel in keeping customers' critical systems running 24/7.

**View PEI's Manufacturers**

**Equipment Rentals**

Our flexible rental and leasing options provide cost-effective short and long-term solutions, whether it's for addressing immediate technology issues or providing back up during major infrastructure upgrades.

**Evaluate Renting vs Buying**

**A Skilled and Dedicated Team**

PEI's greatest asset is our employees, who focus on understanding our customers' needs, identifying the best solutions, and delivering on their promise. In addition, our management team is charged with continuously keeping abreast of changing technology and providing new opportunities for our customers.

#### Our "No Risk" Guarantee On Everything You Buy From PEI

Whether you buy new or refurbished, PEI's quality products and commitment to service ensure your complete satisfaction. Our unconditional 30-day money-back guarantee applies to everything you buy from us, including both onsite and depot replacement for our battery products.

Your no risk experience begins with our rigorous quality processes. Our new parts are purchased directly from their original manufacturer, not third-party vendors. And all of our refurbished equipment is completely restored and expertly tested onsite, then shipped to you in outstanding condition with all applicable manuals and accessories.

PEI's commitment goes beyond the sale by helping you keep your equipment running, and being there when you need us through our extensive support network. If for any reason you are not satisfied with your PEI product, you can return it to us for a full refund within 30 days. The process is simple:

1. Contact PEI within 30 days of your product delivery date to arrange your return. Please have the following information ready:
  - a. Customer name
  - b. Invoice/order number
  - c. Reason for returning the product
2. PEI will provide an RMA number and shipping information. For defective equipment, PEI will pay all shipping costs.
3. Within seven days of receiving your RMA, return your product in its original box with all original packing material, including accessories, manuals, and warranty cards.
4. All credits are processed within 5 business days of product receipt.

If you're ever dissatisfied with a product or service from PEI, please contact us immediately so we can make things right. We also welcome your feedback and suggestions at any time: 877-492-6408.

Thank you for choosing PEI!

### Deciding on New or Refurbished Parts and Equipment

Ensuring maximum uptime of your mission-critical systems is our number one priority at PEI. For that reason, we offer only the highest quality parts and systems. That includes a huge inventory of both new and professionally-refurbished power protection and environmental control equipment from manufacturers such as: APC (American Power Conversion), Airflow, Caterpillar, Compaq, Cummins, Data Aire, Eaton / Powerware, Emerson Network Power / Liebert, GE, Generac, Kohler, MGE, Mitsubishi, Onan, Toshiba, PDI. Plus, we have the expertise and flexibility to help you create the best possible solution, and 24/7 services, such as on-site and depot replacement for batteries.

PEI New Parts & Equipment	PEI Refurbished Parts and Equipment

### The Advantages of New Power Protection and Environmental Control Equipment

If you're looking for the very latest technology, then new is often the way to go. PEI carries a large inventory of new parts and equipment from the world's most respected manufacturer's, and our factory-trained experts can help you design and install the perfect solution for your business.

When you choose new products from PEI, you receive the original equipment manufacturer's full warranty, plus PEI's 100% satisfaction guarantee. We also give you the option to buy, lease, or rent, which means you can easily upgrade your system whenever necessary.

### Refurbished "Like New" Equipment and Parts

For many businesses, choosing high-quality refurbished parts and equipment can mean huge savings, without sacrificing reliability and durability. However, not all refurbished products are the same.

Unlike many equipment brokers, PEI buys direct from the manufacturer or refurbishes parts in-house. PEI's technical experts hand-pick each part and meticulously restores them. That includes rigorous cleaning, testing and calibrating (if applicable). We then pack each item with applicable manuals and accessories, so you receive products that work like new—but cost much less. You also get our no risk, money back guarantee, and a one year warranty from PEI. (Not sure if the 1-year parts and service warranty applies to refurbished items, so please confirm with PEI)

Depending on your needs and budget, you can also opt to buy, lease or rent refurbished systems from PEI, and our skilled technicians are always available to help with installations and service.

### 24/7 Support and Service to Keep Your Mission Critical Systems Running

Contact Us: 877.492.6408

Contact PEI now for 24/7 Nationwide Support.

Need help with ongoing maintenance and support, emergency repair, disaster recovery, replacement and more for your power protection or environmental control systems? PEI is here for you around the clock to keep your systems running. Our exceptional support includes:

#### Dedicated Account Managers

Your dedicated PEI Account Manager is committed to understanding your company's unique needs and making sure they are met. In fact, every account manager at PEI undergoes ongoing training to ensure optimum support for our customers and receives regular reviews to ensure customers are completely satisfied. Contact a PEI account manager at: 877-492-6408.

#### Nationwide 24x7 Support

With our nationwide army of Field Service Engineers, Heavy Machinery Operators, Contractors, Customer Service Technicians and In House Engineers we can often resolve your issue within one day. Request support now at: 877-492-6408 or email at: [service@peii.com](mailto:service@peii.com).

#### Factory-trained Field Service Engineers

Our field engineers have direct industry experience, many with leading equipment manufacturers such as Liebert, Powerware, and MGE, or with the US Navy's Power Program, where they received factory training and certification directly from the OEMs. Request a field technician now at: 877-492-6408 or email at: [service@peii.com](mailto:service@peii.com).

#### Emergency Repair and Disaster Recovery

You don't need a contract with PEI to take advantage of our emergency services. Our expert technicians are available nationwide, 24/7, to help provide immediate support. Contact us now for emergency service and support, if under contract, at: 888-660-3152 or email at: [service@peii.com](mailto:service@peii.com).

#### Comprehensive Support Contracts

From single unit installations to sophisticated internal power networks, PEI provides meticulous maintenance of your mission critical systems to keep them up and running. By consolidating your maintenance with us, we can ensure fast, expert, nationwide service to maintain your entire system, including UPS's, batteries, generators, environmental controls, and more. Plus, our huge spare parts inventory enables us to access parts that are discontinued or hard to find. Talk to a PEI representative about our comprehensive service contracts at: 877-492-6408 or email at: [service@peii.com](mailto:service@peii.com).

#### Complete Line of Replacement Batteries

As you know, one bad battery in a serial line can keep your UPS from functioning properly. PEI maintains a huge selection of batteries, and we can test batteries so you only replace the ones you need. Contact us for battery replacement and testing at: [service@peii.com](mailto:service@peii.com).

#### Equipment Rental

Whether you need a unit for one day, or a turnkey system for an unspecified amount of time, PEI can provide a range of rental solutions. We also decommission, remove, transport, store or recycle your old power system, as well as install, commission, test and service our rental units. Learn more about equipment rentals at: 877-492-6408 and sales at: [sales@peii.com](mailto:sales@peii.com).

PEI can maximize your asset recovery by de-installing and purchasing your power and environmental equipment. We can also provide trades to right-size your equipment, decrease energy expenditures, and limit capital investment. Use the links below to use our trade-in forms:
